## STORY 剧情简介

伦敦北郊的豪宅，宝贵的方程式不翼而飞。宅主克劳德爵士将所有人困在房中，审问方程式的下落。  
他关上灯，房间漆黑一片。

“不管是谁偷了方程式，我都给他一个机会，在黑暗中把它还回来！”

然而，当灯再次打开，爵士却已死亡。

间谍、罪犯，粉墨登场；积怨、谎言，何时曝光？  
姗姗来迟的赫克尔·波洛，端起了那杯黑咖啡。  
“爵士死了，他死前说，咖啡很苦。”

Hercule Poirot and his friend Arthur Hastings are called upon a request from a famous physicist Sir Claud Amory (North of London). During dinner, Lucia Amory, wife of Claud's son Richard Amory, does not feel well and quit dinner. Claud's niece Barbara Amory and his sister Miss Amory are there with her. When Barbara is looking for pills for Lucia, she finds a medicine box, in which Dr. Carelli points out poison.

While people are having coffee after dinner, Claud locks everyone in his library because his new formula for a powerful explosive has been stolen. He turns off lights to let the thief give the formula back without being noticed by anyone else. However, when lights are turned on, Claud is found dead...
